OPEN LETTER TO PRESIDENT DONALD TRUMP

12 FEBRUARY 2018

The President of the USA
The White House
1600 Pennsylvania Avenue NW
Washington, DC 20500

Attention: Mr. Donald Trump

COMMENT FROM A "SHITHOLE" COUNTRY

Mr President,

Having ample evidence that the United States of America was heavily involved in transforming South Africa, once a prosperous first world country, into a "shithole", **before you came to power**, the Afrikaner Volksparty would like to determine the USA's future attitude towards our country, based on certain statements in your inaugural speech. Statements that are in direct conflict with the views and statements of previous presidents of the United States of America and people like Henri Kissinger, Chester Crocker and other.

You stated: "We will seek friendship and goodwill with the nations of the world – **but we do so with the understanding that it is the right of all nations to put their own interests first. We do not seek to impose our way of life on anyone, but rather to let it shine as an example for everyone to follow.**" ... and ". **At the centre of this movement is a crucial conviction: that a nation exists to serve its citizens. Americans want great schools for their children, safe neighbourhoods for their families, and good jobs for themselves. These are the just and reasonable demands of a righteous public.**"

Now Mr. President, we have no compunction about your recent description of African countries and in particular South Africa, as it presents sound observation. All the good qualities of life of what you envisioned for America in your inaugural speech, we once had in abundance in South Africa! It was founded, established and maintained through the grace of GOD, by us, the Afrikaner people, the legitimate owners of South Africa, our fatherland, where now reigns death and destruction.

There is now nothing left of “the just and reasonable demands of a righteous public.”! Because Africa is a shining example and illustration of the difference in race and ethnicity, common sense dictates that it should be taken in consideration in determining political policy. The Afrikaner nation has been treacherously deprived of our political authority in our own country, hence the reason for your fitting description of Africa, now including South Africa, imposed by the steady demise since the assassination of dr. H.F. Verwoerd and the policy of separate development for different peoples, on 6 September 1966! (It was Binyamin Netanyahu who deported 60,000 African Immigrants not because we hate them, said Eli Yishai, Israel’s minister of Internal affairs, but because they endangered the nature and character of the Jewish people.)

Afrikaners being in South Africa has nothing at all to do with colonialism. We were born and bred and developed as the youngest nation in the world in this unruly and totally undeveloped country which our forbearers tamed, civilized and built into what was called a first world country, in less than four hundred years. Comparable with what your forefathers did in America, except for the timespan and near extermination of the indigenous Indian tribes. We did not steal it from any tribe or nation as claimed by the black races that today would not have existed if their nature to destroy were not curbed by us since the *Mfecane**, **up to 1994**, when F.W. de Klerk, then president of South Africa, yielded to pressure from the State Department of the USA and UK’s Margaret Thatcher. We did however, since the 16-hundreds continuously had to fight wars against the British to keep what was lawfully ours.

****(Mfecane is used primarily to refer to the period when Mzilikazi, a king of the Matabele, dominated the Transvaal. During his reign, roughly from 1826 to 1836, he ordered widespread killings and devastation to remove all opposition. He reorganised the territory to establish the new Ndebele order. The death toll has never been satisfactorily determined, but the whole region became nearly depopulated. Normal estimates for the death toll range from 1 million to 2 million)***

I include a letter written by an intellectual Afrikaner leader, the late J.A. Marais, obviously superior in politics to president Clinton, a previous American president, as background of the statements above, which should interest you.

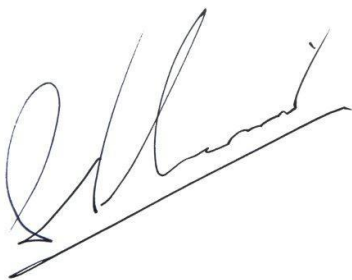

This letter is not to ask for help or handouts from the USA! Only to receive a reply from you, Mr. President, so that us Afrikaners who thus far, by the grace of God escaped the genocide inflicted on us, to be able to determine whether the American Government’s understanding and approach of Africa is now in line with your inaugural statement, without the influence of secret organisations which, like the British, render the Afrikaner nation, like the Rhodesians, expendable.

It is a truism that the white Afrikaner nation would have sided with the West in a conflict situation, rather than with the Communists, unlike the Africans who prefer BRICS. It is thus hard to digest the attitude that America maintained towards the Republic of South Africa under Afrikaner rule. The least you can do to rectify the unbearable wrongs inflicted by the USA on South Africa in collaboration with the British, is to state in public, like acknowledging that Jerusalem is the capital of Israel, likewise the Republic of South Africa rightfully is the fatherland of the Afrikaner people, as the entire world, including the USA and UK did for hundreds of years! All

the black nations in South Africa had and still have their own land. The only difference is that they never developed theirs as we did ours.

Your views in this regard will be appreciated.

Kind regards,
Yours sincerely,
